

**NAME**

mktextlsr – create ls-R databases

**SYNOPSIS**

**mktextlsr** [*directories*]

**DESCRIPTION**

This manual page is not meant to be exhaustive. The complete documentation for this version of T<sub>E</sub>X can be found in the info file or manual *Kpathsea: A library for path searching*.

**mktextlsr** is used to generate the ls-R databases used by the kpathsea library. It will create them for the specified directories, or for a default list if no directories are specified.

**OPTIONS**

**mktextlsr** accepts the following options:

**--help** Print help message and exit.

**--version**  
Print version information and exit.
